Getting your "pom-poms out" doesn't only refer to cheering on your match-play partner. Hand-knit from 100 percent worsted wool, every element of a Jan Craig headcover is born from a ball of yarn. Go online to select the base color [from 39 different options], pom-pom or tassel, and yarn and stripe variations. You can also personalize each headcover with numerals or initials. The only limit is your imagination.

Pure grips

Dream up your own set of 13 rubber grips by selecting your desired base color, accent color, graphic and text. You can also submit your own logo, image or font preference. Plus, you don't need any adhesives or solvents to install the grips.
